Vintage Mode

Most basic vim commands should work (command mode only obviously) and can be preceded with a count.

. Repeat
d, count (optional), motion/dd/D Delete motion (e.g. a word) or delete line or delete line to end
c, count (optional), motion/C Change motion or change until end of line (enters insert mode)
y, count (optional), motion/yy Yank motion or yank (copy) Line
p/P Paste yanked/deleted text after/before the cursor
O/S Move to the beginning/end of a line
g Most of g's power is not implemented in Vintage Mode. You can use the basic combinations gg and G to move to the top/bottom of the file. number, gg/G to move to that line.
a/A Append to cursor/line (enters insert mode)
i/I Insert before cursor/line (enters insert mode)
w/W Move forward a Word/WORD (WORDS are whitespace-separated words)
b/B Move backwards a Word/WORD
e/E Move to the end of a Word/WORD
f, character/F, character Find (character) forward/backwards on the current line
r, character Replace character under cursor
t/T 'till (forward/backward) Used in combination with motions like c or d. For example, d, t, { deletes everything until the next { character (on the current line).
o/O Open line below/above (enters insert mode)
{/} Move to the beginning/end of a paragraph
s/S or cc Substitute character/line (enters insert mode)
H(igh)/M(id)/L(ow) Move cursor to the top/middle/bottom of the screen
J Join Lines
ZZ Close File
x Delete character under cursor
X Backspace
v/V Enters Visual Mode/Visual Line Mode
n/N Find next/previous occurrence of search
>, >/<, < Indent/Unindent
~ Swap Case
q, character/@, character Record/play macro
